

The Green Solution for Water Storage

Water Tanks

Quality • Durable • Low Maintenance • Economical

Overhead Water Tank mounted on tower

- **Corrosion Resistant**
- **Life Cycle Costs**
- **Pre-Engineered Tank System**
- **Local Service**
- **Qualified Installation**

17,300 Gallon (65,490 L) Water Storage Tank for residential use

18,100 Gallons each (68,515 L) Water Storage Tanks for rain water collection

35,600 Gallons each (134,760 L) Water Storage Tank

Water Tanks

SCAFCO designs and manufactures water tank systems in 11 different diameters (6 feet to 36 feet) with wall heights up to 14 feet and capacities in excess of 100,000 gallons. (Larger tanks available upon request)

High-quality galvanized steel tank exteriors are hot-dipped in zinc coating for dependable and lasting protection. SCAFCO water tanks have an internal flexible liner that creates a watertight membrane ensuring stored water never makes contact with the tank's steel surface. High-quality materials used in SCAFCO water tanks minimize corrosion and maintenance. For more information visit www.SCAFCO.com.

Water Storage Tank for agricultural use

Water Storage Tanks are designed to meet custom needs

Water Tank Specifications

WATER TANK MODEL	DIAMETER		EAVE HEIGHT		OVERALL HEIGHT		CAPACITY
